

FIGMA UI/UX DESIGN

Total Rounds:2

ROUND 1: DESIGN CHALLENGE

Flow:

1. The theme/problem statement will be revealed to all participants at the beginning of the round.
2. Each team must create a UI/UX design based on the given theme using **Figma**.
3. Participants are required to understand the problem, identify the target users, and develop a suitable digital solution.
4. Teams must design the required screens and create a basic user flow/prototype.
5. Participants are allowed to use Figma's built-in resources and standard design tools.
6. The design must be created during the allotted hackathon time.
7. Teams are expected to maintain a clear and organized Figma file.

Rules:

1. The theme will be revealed **only at the start of the event**.
2. All designs must be created using **Figma**.
3. Teams must work only on the given theme.
4. Participants should not use previously designed projects or templates as their final submission.
5. The design should demonstrate both **UI aesthetics and UX thinking**.
6. All team members are allowed to contribute to the design.
7. Internet access may be used for research and inspiration, but direct copying of existing designs is not permitted.
8. AI tools may be used only for ideation/research, if permitted by the organizers. The final design must reflect the team's own design decisions.
9. Teams must submit their Figma file/link before the deadline.
10. Late submissions will not be considered.

Evaluation Criteria:

- **UI Design Quality** – Visual hierarchy, typography, spacing, consistency and overall aesthetics.
- **UX & Usability** – User flow, ease of navigation, accessibility and clarity.
- **Creativity & Innovation** – Originality and uniqueness of the proposed solution.
- **Problem Understanding** – How effectively the design addresses the given theme.

- **Prototype & Interaction** – Quality and completeness of the interactive prototype.

Time Given:

Design & Prototyping: 25 mins

ROUND 2: DESIGN PRESENTATION

Flow:

1. The shortlisted teams from Round 1 will proceed to the final round.
2. Each team must present their solution to the judging panel.
3. Teams should briefly explain the problem, target users, design approach and solution.
4. Participants must demonstrate their Figma prototype and explain the major user flow.
5. Judges may ask questions regarding the team's design decisions.

Rules:

1. Each team will be given a fixed amount of time for presentation.
2. Every team member may participate in the presentation.
3. Teams must present only the solution developed during the hackathon.
4. The presentation should clearly explain the reasoning behind the major design decisions.
5. Judges' decisions will be final.

Evaluation Criteria:

Criteria	Weightage
UI Design & Visual Quality	25%
UX & Usability	25%
Creativity & Innovation	20%
Problem Understanding & Solution	20%
Presentation & Prototype Demonstration	10%
Total	100%

Time Given:

Presentation: 5 mins

FINAL RESULT

- The top-performing teams from Round 2 will be declared the winners.
- The **1st, 2nd and 3rd place** teams will be selected based on the overall judging score.
- The decision of the judging panel will be final and binding.

Submission Requirements

Each team must submit:

- Figma project link
- Final UI screens
- Interactive prototype
- Brief explanation of the solution
- Team member details
